Total Facility Solutions Wins CSAP Platinum Award for Safety Performance

Outstanding Practices Earn Recognition from the ConstructSecure Independent Construction Safety Assessment Program

Plano, TX — February 1, 2011 — [Total Facility Solutions, Inc.](#), a specialty contractor and services company focused on critical process infrastructure, today announced it has been recognized with ConstructSecure, Inc.'s Construction Safety Assessment Program (CSAP) Platinum Award for its industry-leading contractor safety practices and procedures. Platinum Awards are given to participants that successfully met more than 95 percent of the program's requirements.

"As Total Facility Solutions continues to expand as a company, it is critical that we not lose sight of the values that contribute to our success," said Joe Cestari, president of Total Facility Solutions. "This recognition of our commitment to safety validates our internal data and track record regarding safety performance. Recognition for our safety policies and procedures is the most valuable feedback we can receive and is especially important for our key markets, including the semiconductor, photovoltaic, life science, mission critical and scientific research industries."

Administered by ConstructSecure, the CSAP offers an independent evaluation of a contractor's safety performance history and current safety management systems. The program measures historical performance and forward-looking factors within a company's safety program. It provides a thorough and objective evaluation of a company's safety performance, serving as a reliable predictor of future safety results.

For more details on the CSAP please visit www.constructseer.com. Information regarding Total Facility Solutions' safety policies can be found at www.tfs-us.com.

TOTAL FACILITY SOLUTIONS

A Company of the M+W Group

Total Facility Solutions, Inc.
